[www.hcstemm.org](http://www.hcstemm.org)

*Subscribe to email updates  
and never miss a thing! Just  
enter your email address in  
the "Subscribe" box on our  
website.*

*The Henry Cluster STEMM Foundation runs programs and events in science, technology, engineering, mathematics, and music and the arts for the eleven schools of the Patrick Henry Cluster: Benchley-Weinberger, Dailard, Foster, Gage, Green, Hardy, Hearst, Marvin, Lewis Middle, Pershing Middle, and Patrick Henry High.*

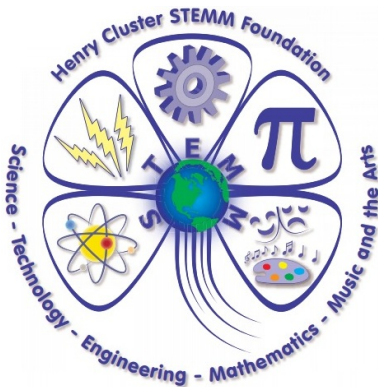

We serve all Cluster students, but not all parents and teachers find out about our activities, and some kids miss out. We need help advertising and promoting our events so everyone gets the chance to participate.

**Want to see more students involved in STEMM at your school? (Yes)**

## Be our Point of Contact!

- Share our flyers and information packets with parents and teachers.
- Act as liaison between our Foundation and the parent-teacher organizations on your campus.
- Promote (casually, in conversation) our events to other parents and teachers, and work with your school staff to sign students up or create student teams as necessary.
- Let us know what STEMM projects your students and teachers would like to see, and how we can help implement them.

**The more people we reach, the more students we serve. Please email us at [info@hcstemm.org](mailto:info@hcstemm.org) or call (562) 369-9495 to volunteer. Thank you.**
